

# Have Fun While Building Healthy Oral Habits

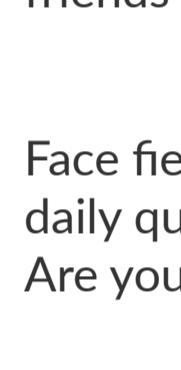

## YOUR BENEFITS:

Transform a dull routine into an immersive experience

Fight for your teeth in contested one-to-one battles

Learn about dental health through colorful characters

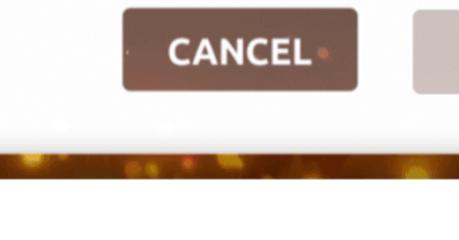

Brush together with your troops to prepare for battle

## HOW IT WORKS IN 5 STEPS:

1

Download the app and sign up via email or your favorite social media account.

2

Learn the ropes with the interactive dive-in tutorial. Play a demo battle to get to know the good and bad characters from yours and your opponent's cards.

3

Brush your teeth (for real) together with the squad to prepare them for combat. They will refuse to enter battle if they are tired. Make sure you take good care of them by brushing twice a day.

4

Win battles and collect cards to build the ultimate deck for the win. Share your achievements with friends on social media!

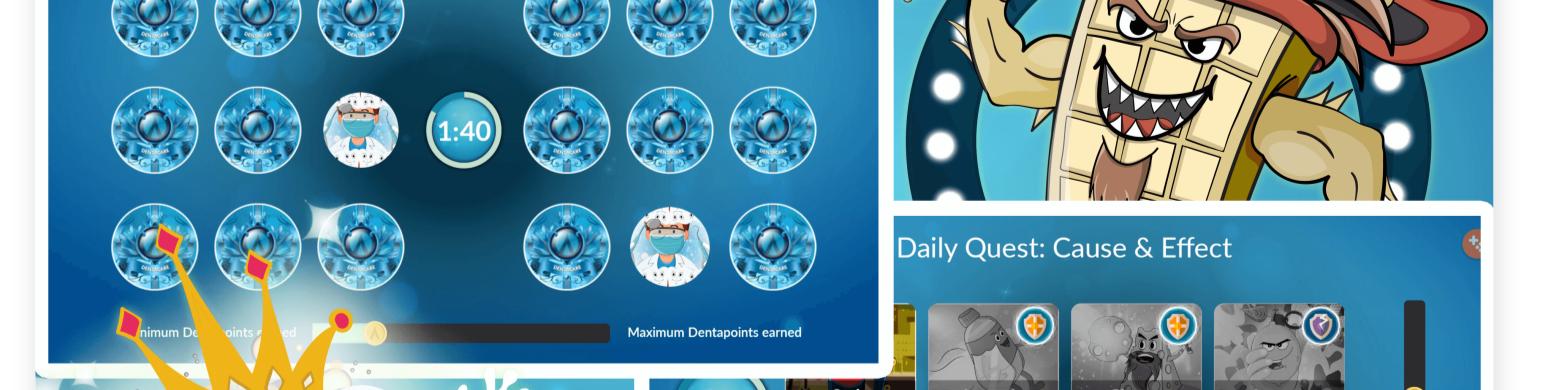

5

Face fierce opponents in every arena and complete daily quest brain games to discover epic boss fights. Are you strong enough to defeat them all?

## HOW TO EARN REWARDS

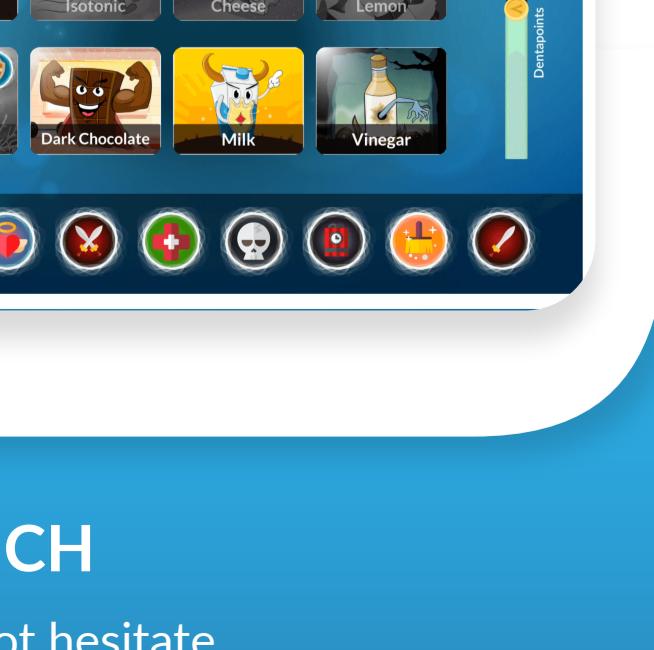

### FACE FIERCE OPPONENTS

Face new challengers with each arena and unlock epic boss fights, as you progress through the game. The further you go, the higher the rewards. Get three fragments for each boss defeated.

### COLLECT EPIC CARDS

Throughout your Jaws of Battle journey, you will earn card fragments with every victory. Assemble these fragments to unlock new character cards and beef up your deck. Choose wisely for tactical advantage - you can only have 15!

### FINISH DAILY QUESTS

Test your mental mettle with the mini brain games that are the daily quests. Get rewarded with Dentapoints to unlock further progression options!
