What is Dentacoin?

Dentacoin (DCN) is the first digital currency created especially for the dental market. Its mission is to make dental care affordable and accessible for people all over the world.

The more patients, dental professionals and providers use DCN to pay for dental goods and services, the higher its inherent value grows.

Based on a solid Blockchain infrastructure, this alternative payment method ensures fast payments, unmatched security, lower to no transaction costs, and unmediated relations.

DENTACOIN ECOSYSTEM

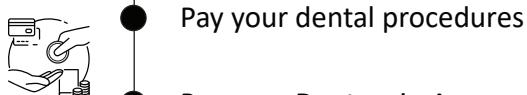

And the best part: Dentacoin also denotes a network of apps and sites where you can be rewarded with DCN for various activities like answering dental surveys, submitting feedback, improving your oral hygiene, etc.

Why use DCN?

Dentacoin is a great alternative payment method and the only currency that enables you to cover your dental treatments by using its dedicated software tools. The key benefits of using DCN are:

- Affordable dental care (discounts, low monthly premiums)
- Additional income (Dentacoin Tools)
- Life-long preventive care (Dentacoin Assurance)
- Direct, ongoing communication with your dentist
- Conscious oral care focused on prevention

What can you do with DCN?

- Pay your dental procedures

- Pay your Dentacoin Assurance fees

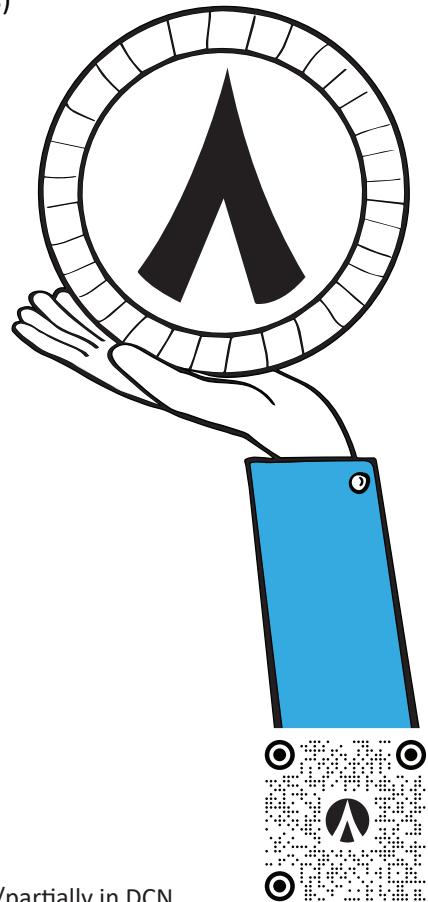

- Exchange to other currencies

- Buy Gift cards (Bidali)

- Store for future value increase

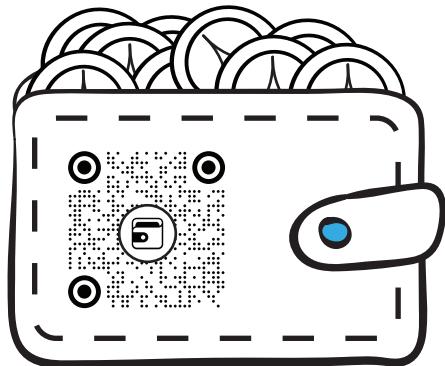

Note: Some dental practices provide discounts to patients who pay fully/partially in DCN. Ask your dentist about the payment terms applicable in their dental practice.
